SAFETY INSTRUCTIONS

- This product operates only in the range of AC 100V-250V and 50Hz/60Hz. Please check first your power supply to see if it fits this range.
- Please be noted that you need to disconnect from the mains before you start any maintenance or installation procedures.
- Make sure that the power cord is placed in a position where it is easy to unplug it from the mains in an emergency.
- Do not overload a wall outlet, extension cord or adapter as this may cause electrical fire or shock.
- This product is not water-proof and should not be exposed to dripping, splashing, or any type of liquid.
- No objects filled with liquid such as vase shall be placed on the product.
- Please do not clean the product with wet cloth, which may cause a short circuit.
- No wet objects should be placed near the product.
- Disconnect the power of the product before you connect the satellite cable to the product. Otherwise, it may cause damage to the LNB.
- The LNB must be earthed to the system earth for the satellite dish.
- Unplug the product and disconnect the antenna cable during a thunderstorm or lightning, especially when left unattended and unused for a long period of time. This will prevent possible damages from power surges or lightning.
- Place the product indoor.
- Do not expose the product to rain, sun or lightning.
- Do not place the product near any heat appliances as a radiator.
- Ensure that there is more than 10 cm distance from any electrical devices & wall.
